NEWS RELEASE

FOR IMMEDIATE RELEASE
August 29, 2009

TO RESEND THIS RELEASE:
Public Information: 485-3110

**Santa Rosa Street Narrowed to One-Lane Eastbound
from Bridge Street to Main Street August 31**

(VICTORIA, TEXAS) The City will reduce Santa Rosa Street to one lane eastbound from Bridge Street to Main Street on Monday, August 31 to install utilities. The construction on Santa Rosa Street is expected to take approximately one week, weather permitting. On-street parking will not be allowed. All businesses and parking lots in the construction zone will remain accessible via different routes.

To work safely and efficiently, the intersection of Bridge Street and Santa Rosa Street will be completely closed for short periods during various times over the next week and reopen when work is completed.

To reduce the inconvenience to businesses and the public, construction is within a limited area. Drivers can expect major delays during peak traffic times. Alternate routes are suggested when possible.

This construction is part of the \$2,913,062 Downtown Water and Sewer Line Replacements (Phase I, Projects 1 & 2). The contractor is Triple B Services, LLP from Huffman, Texas. This project is scheduled to take approximately 8 months to complete.

For more information, contact the Public Works Department at 485-3340.
