**Evening Hour Construction at Liberty Street and
Santa Rosa Street Begins August 26, 2009**

(VICTORIA, TEXAS) The City's contractor on the Downtown Utilities Replacement Project will begin utility excavations during the evening hours on Wednesday, August 26, 2009 in the intersection of Santa Rosa Street and Liberty Street.

To reduce the inconvenience to businesses and the public, construction at this intersection will take place between the hours of 6 pm and 6 am and is expected to take one to two days, weather permitting.

Flagmen will direct traffic through the work zone. Drivers can expect major delays in the work zone and should use alternate routes to get around the work zone if possible.

This construction is part of the \$2,913,062 Downtown Water and Sewer Line Replacements (Phase I, Projects 1 & 2). The contractor performing the work is Triple B Services, LLP from Huffman, Texas. This project is scheduled to take approximately eight months.

For more information, contact the Public Works Department at 485-3340.
